

CT USSSA and Starion Energy

CT USSSA and **STARION ENERGY**, an electricity supply company, have partnered together to help teams and players SaveMoney and MakeMoney. CT USSSA recognizes the struggles that teams have in raising funds every year. We also recognize in these economic times the costs that go into daily living. We have come up with a way to save money on your electric bill and earn money for your team. For every person that enrolls with Starion Energy, CT USSSA will donate \$10 to the team that person is associated. For example if 15 enrollments are received that would \$150. Make sure you tell your friends and family.

The process is simple and easy.

Enroll online at STARIONENERGY/CTUSSSA or call 800-600-3040 or fax to 860-647-1233

MAKE SURE TEAM NAMES ARE ON ENROLLMENTS

CT USSSA will keep track of the enrollments and on the weekend of August 14-15 when the state tournaments are played will give the teams their donations just in time for the Worlds in Sept. Consider it travel money. There will also be selective dates when a Starion representative will be at the field and teams can bring their bills then. **Dates will be April 3, May 8, June 26 and July 31.** Offer is available to CL&P or UI customers only.

Who is Starion Energy?

STARION ENERGY is an alternative supplier of electricity in the state of CT, which can potentially save you money on your electric bill by reducing your rate on the generation portion of your bill. They are licensed by the Department of Public Utility Control (DPUC). As a consumer have a right to choose your supplier, or in other words choose your rate.

I myself have been involved in slow pitch softball for over 20 years and have competed on the national level with USSSA. I have also been involved in the alternative supply business and have seen the value of lowering electric bills to save money. I am pleased to be part of this great partnership.

Additional Information...

Is CL&P or UI my electric supplier?

CL&P and UI must provide electricity to customers who do not choose another electric supplier. Therefore, CL&P and UI are the default providers of electric generation services.

How long does it take to switch my electric supplier?

It takes one billing cycle to implement the switch. So, it does not happen immediately.

Are there any fees to enroll?

*Enrollment is **Free**. There are no charges to enroll and no additional charges thereafter.*

Are there any fees to cancel?

*Choosing Starion Energy is **Risk Free** and you can cancel at any time.*

Will CL&P or UI be upset if I choose an electric supplier?

*No, the local utility **encourages** their customers to choose an electric supplier to help lower energy costs.*

Can an electric supplier shut off my electricity?

No. Only the local utility can shut off your electricity service. Service remains the same.

Who sends me a bill if I choose Starion Energy as my electric supplier?

*The local utility will bill you for the electricity you purchase from Starion Energy. So, you will **continue to Receive one bill from the local utility**. The only difference is that the **Generation Service Rate** on your bill, will be the rate offered by the electric supplier.*
